

## ECTONIL® POUR ON

### Pour On Topical Solution

Tick killer and insecticide of multiple action and extended effect

### Formulation

Fipronil 10 mg, excipients q.s.ad. 1 mL

### Indications

For the treatment and control of horn fly, ticks, *Dermatobia* spp. ("tupe" or "nuche"), biting and sucking lice, and myiasis (worms). It has high efficacy against strains resistant to pyrethroids and organophosphates used against horn flies and ticks.

### Dosage and Administration

Cattle, sheep, camelids and horses: 1 mL/10 kg of b.w. Apply on the dorsal line, between the withers and the base of the tail; guinea pigs and poultry: 2 drops per kg of b.w. applied on the back. The interval between treatments should be of at least 2 months, but it will depend on the severity of the infestation. Apply through epicutaneous route.

### Commercial Presentation

Bottle x 30 mL, Bottle x 500 mL, Bottle x 1 L,
