

CANI-TABS® NATURAL ANAL GLAND + DIGESTIVE

Palatable tablets

Natural Digestive & Anal Gland Health Promoter

Agrovet MARKET

Formulation

Each tablet contains: Pumpkin seed powder 158 mg, Granulated pumpkin seed 68 mg, Apple pectin cellulose powder 34 mg, Quercetin 25 mg, Lactobacillus acidophilus 24 mg, Bromelain 15 mg.

Indications

Natural nutritional supplement, promoter of anal gland health and gastrointestinal function. Combats poor digestion. Supports firm, bulking stools that help the anal glands empty naturally. Its natural extracts, probiotics and prebiotics present maintain digestive health, support a healthy gastrointestinal tract, strengthen the immune system and maintain normal histamine levels in cases of seasonal allergies.

Dosage and Administration

Oral daily supplement. Due to its high palatability, it can be administered directly or by disintegrating and mixing it with meals. Always administer with fresh water available. Canines: Under 7 kg: 12 tablet/day. From 7-12 kg: 1 tablet/day. From 12 to 23 kg: 2 tablets/day. From 23 to 34 kg: 3 tablets/day. Over 34 kg of weight: 4 tablets/day as maximum dose. The dose can be divided between morning and afternoon. Felines: 1 tablet daily. When first using, administer half the recommended amount once daily for the first 5-7 days to allow your pet to adjust to the increased fiber content, then gradually increase the recommended amount. Typical results occur in 3-5 weeks, however optimal results may take up to 2-3 months. If you have not seen improvement after the first 30 days, you can double the daily amount, as some pets need a higher amount of fiber to see results.
